AN EQUIPMENT POOL OF ULTRAMODERN MACHINES

As a tool manufacturer, Louis Bélet has a comprehensive collection of modern production equipment. It is notably made up of machines that have come from LBSA's own development, equipped with control cameras and a made to measure CAM system.

AIMING FOR EXCELLENCE WITH CONTROL AND MEASUREMENT DEVICES

Manufacturing tools of high-precision implies the use of high-tech instruments. LBSA has digital cameras, laser measuring devices as well as CNC measuring machines.

SERVICE

Our R&D department is ready to meet your technical challenges, whether to build a tool or develop a machining strategy. We offer a resharpening service for most tools, including those of the competition.

WATCHMAKING & JEWELLERY PRODUCTION

Louis BELET excels in manufacturing customized end mills for the high end watchmaking market. Our tool quality and high reactivity enabled us to become a benchmark for the leading watchmaking brands.

MEDICAL TECHNOLOGIES

Because of our know how and experience over more than half a century in customized tools, Louis BELET has become an essential partner for the leading names in the medical industry.

AERONAUTIC INDUSTRY

Bélet offers several tools designed for machining aluminium, titanium, inconel and alloyed steels. In addition, a specific set of tools has been developed for machining composite materials.

MICROMECHANICS

Bélet's standard and custom end mills are used by leading companies in this sector. Thanks to our high end CNC machines, we are able to produce theses tools in large quantities.

STANDARD TOOLS IN SOLID CARBIDE OR PCD

Louis Bélet offers more than 125 types of tools, available from stock uncoated or coated with a very wide range of dimensions.

- End mills
- Drills
- Circular saws
- Thread tools

SPECIAL TOOLS IN SOLID CARBIDE OR PCD
